## *It's our 7th Anniversary! Let's keep the ball rolling!*

*The researchers this year gave us some good news by getting their first significant hit on a chromosome. Help us Keep the Ball Rolling to find the epilepsy genes by donating a blood sample and making a donation to support the research. Ten year old Beetle from The Netherlands sent blood to the University of Minnesota for Dr. Patterson's research and you can too! Blood is needed from dogs 10+ years old that have never had a seizure to serve as controls and from affected dogs! If you own an Aussie that has idiopathic epilepsy please send in a blood sample on your affected dog for Dr. Patterson's research at the University of Minnesota.*

## *Toby's Foundation — Making Tracks to Defeat Canine Epilepsy!*

For information on submitting blood samples: [www.tobysfoundation.org/samples.htm](http://www.tobysfoundation.org/samples.htm)

Online donations: [www.tobysfoundation.org/Donors.htm](http://www.tobysfoundation.org/Donors.htm)

Mail donations to:

Toby's Foundation, Inc., PO Box 7321, Laguna Niguel, CA 92607

Your gift is tax deductible to the extent allowed by law.

Please check with your employer about a matching gifts program.
