

On our *8th* Anniversary

DANA SILVERMAN

*Sharing the hope for **No Epilepsy** for future Generations of dogs*

Progress has been made. Researchers are following up on new leads to find the genes responsible for canine epilepsy and develop a screening test. Your help is still needed. Researchers need funding and blood samples from dogs affected with idiopathic (primary) epilepsy. Please continue to help us with this important research by making a tax deductible donation to Toby's Foundation for the research and by submitting a blood sample on your affected dog to the University of Minnesota for Dr. Ned Patterson's Canine Epilepsy Research. Please also submit blood samples from your dogs that are 10+ years old that have never had a seizure to serve as controls. See the information below to make a donation and to submit a blood sample. Thank you.

Toby's Foundation — Making Tracks to Defeat Canine Epilepsy!

Submit blood samples: www.tobysfoundation.org/samples.htm

Online donations: www.tobysfoundation.org/Donors.htm

Mail donations to:

Toby's Foundation, Inc., PO Box 7321, Laguna Niguel, CA 92607

Your gift is tax deductible to the extent allowed by law.

Please check with your employer about a matching gifts program.
