

# Help us reach our GOALS!

Epilepsy research has made great progress, thanks to your generosity and support. We still need your help to reach our goal to find the genes responsible for canine epilepsy and develop a screening test.

This year we are aiming for \$20,000 to support the research. We are currently at \$13,000, already surpassing our donation of \$10,000 last year! Please help us hit our mark! Continue to give blood and make a donation. Thank you!
